Project Overview	•The city of Tempe is implementing a project to improve pedestrian and bicycle facilities, enhance the streetscape and calm traffic on Broadway Road between Mill Avenue and Rural Road. The project will include bicycle and pedestrian enhancements, public art, ADA improvements and landscaping. It will make the street a more user-friendly, multi-modal and sustainable corridor. The project is intended to promote neighborhood stability, sustainable business and development efforts while continuing Tempe's commitment to alternative modes of transportation.
Related Plans/Policies	•The Broadway Road Streetscape Project is identified in the Comprehensive Transportation Plan and as part of the Tempe 2030 General Plan.
Public Involvement	•Public meetings were held Nov. 19, 2008; March 18, 2009; May 18, 2009; June 7, 2010; Oct. 20, 2010; Feb. 25, 2013 and June 11, 2013. Residents, businesses and property owners between Apache and Alameda from Mill to Rural were invited to all meetings.
Funding	•Congestion Mitigation and Air Quality (CMAQ) Improvement Program federal funds totaling $3.857 million were secured for the design and construction of the project. As part of the CMAQ requirements, local matching dollars are required. As such, an additional approximately $250,000 in Tempe transit funds is budgeted for the project.
Timeline	•Obligation for funding is required by Sept. 2014. Environmental clearance and design concepts are underway. Staff will present the final design concept to the City Council in November 2013. Construction would likely begin as early as summer/fall 2014 and last six to eight months.
