

Shortcuts to pages on Tempe's website

The City of Tempe is upgrading its website software to make it even more user friendly, especially on mobile devices. As part of the upgrade, current website addresses will change. For a limited time, there may be some broken links to the site from web browsers. To ensure you can still find what you need and continue to visit those webpages that you visit most, this list contains the most commonly used shortcuts. If you bookmark one of these pages, they will continue to work through the transition. Thank you for your patience as we make these improvements! If you have any questions about the website, email: webmaster@tempe.gov.

**Simply type in your browser:
www.tempe.gov/XXXX (replace Xs with a name from the list below)**
