At least three signatures are required. The above petition will be sent to the City of Tempe Neighborhood Enhancement section and an inspector will contact the petitioners to verify their signatures and concerns. The City of Tempe will then contact the party responsible for the barking dog and request that they comply with the City's Nuisance and Property Enhancement Code. If voluntary compliance is not achieved by the responsible party, further enforcement action may be taken, which may require a court appearance by at least one of the petitioners and the dog owner. It is helpful if logs are kept with dates and times of barking.
