This petition requires the legible printed names, phone numbers and addresses of complainants from three separate households who are affected by the barking dog, along with their signatures. The petition will be sent to the City of Tempe Neighborhood Enhancement Section. Once received, the area inspector will contact the petitioners to verify petition information and the concerns of the petitioners. The responsible party will then be contacted and issued a notice to comply. If voluntary compliance is not achieved and a citation is issued, all petitioners will be required to appear in court and testify to the barking dog problem. It is helpful if logs are kept by all petitioners indicating the dates, times and duration of the barking dog for submittal to the court.
