Portable Restroom Facilities

OSHA and the Health Department require an event producer provide one chemical-type toilet for every 500 people if permanent restroom facilities are not available at an event venue.

ADA standards require a minimum 5% of all restroom facilities be fully accessible, whether temporary or permanent.
The City of Tempe cannot provide portable restroom facilities for events; therefore, an outside rental company must be contacted to provide these facilities.

Custodial fees will be billed at $39/hour plus replacement supplies for groups over 1000.
