

Tempe Fire Department Policies and Procedures

Firefighter Recruit/Firefighter

410.02G

Rev 11-01-00

Purpose:

To actively support and uphold the City's stated mission and values. To respond to fire alarms, hazardous materials incidents, medical emergency and other calls to protect life and property; to provide highly skilled work in providing emergency medical care to sick and injured persons; and to participate in fire prevention, training, and station and equipment maintenance activities.

Distinguishing Characteristics:

Firefighter Recruit - This is the entry-level class in the Firefighter series. Employees at this level are not expected to perform with the same independence of direction and judgment on matters relating to established procedures and guidelines as are positions allocated to the journey level. Since this class is typically used as a training class, employees may have only limited or no directly related fire suppression work experience. Employees work under general supervision while learning job tasks and are expected to be performing at the journey level within the prescribed time frame.

Firefighter - This is the full journey level class within the professional Firefighter series. Employees within this class are distinguished from the Firefighter Recruit by the performance of the full range of duties as assigned. Employees at this level received only occasional instruction or assistance as new or unusual situations arise and are fully aware of the operating procedures and policies within the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from the Firefighter Recruit level, or, when filled from the outside, require prior work experience directly related to area of assignment.

Supervision Received and Exercised:

Receives general supervision from a Fire Captain or higher level supervisory and management staff.

Examples of Duties:

This class specification is intended to indicate the basic nature of positions allocated to the class and examples of typical duties that may be assigned. It does not imply that all positions within the class perform all of the duties listed, nor does it necessarily list all possible duties that may be assigned.

Duties may include, but are not limited to, the following:

- Respond to fire alarms with assigned company; lay and connect hose; maintain pumping apparatus; hold nozzles and direct water streams; raise and climb ladders; assist in freeing victims from situations in which they are physically trapped; utilize and maintain self-contained breathing apparatus (SCBA).
 - Operate all types of portable fire extinguishers, power tools, hand tools and related equipment such as smoke ejectors, forcible entry tools, pike poles and axes.
 - Administer first aid; assist paramedics at medical emergencies; apply techniques for the control of bleeding; utilize immobilization techniques to stabilize patient; perform cardio-pulmonary resuscitation; perform automatic electronic cardiac defibrillation; operate semi-automatic electronic defibrillator.
 - Respond to and mitigate hazardous materials incidents; identify hazardous materials using specialized monitoring and testing equipment; prepare contamination reduction corridor to decontaminate
 - Personnel and patients; inspect occupancies for safe use and storage of hazardous materials; maintain accurate records of hazardous materials inspections.
 - Participate in fire and life safety inspection activities and other fire prevention and public education activities as assigned; participate in fire departments annual fire inspections; ensure that businesses are operating in compliance with the fire code; maintain appropriate records and files.
 - Participate in fire drills; serve as drill instructor as assigned; attend training sessions which include fire fighting techniques, emergency medical care, and the proper use of all equipment are related tools.
 - Clean apparatus and equipment and perform general custodial duties; paint and flush fire hydrants.
 - Guide tours through fire stations and participate in parades.
 - May act as Fire Captain or Fire Engineer as required.
 - Perform related duties as assigned.

When assigned to Paramedic position:

- Administer emergency medical care utilizing accepted guidelines of basic and advanced life support procedures in treating the sick and injured; examine victims and communicate physical assessment findings to base hospital physician.
- Perform cardio-pulmonary resuscitation and endotracheal intubation; apply different types of splints, backboards and cervical collars.
- Administer various intravenous solutions and parenteral drug injections, inventory and request necessary medical and drug supplies.
- Operate a variety of medical equipment including suction units, pulse oxymeters, laryngoscopes, cardiac monitors, defibrillators, oxygen administration equipment, pneumatic anti-shock garment (PASG) and glucose monitors.
- Conduct Emergency Medical Service training classes for Fire Department personnel.

Experience and Training Guidelines:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. The hiring department may include job related experience, training or license and certification preferences at the time of recruitment. A typical way to obtain the knowledge and abilities would be:

Experience:Firefighter Recruit

No experience is required.

Firefighter

Successful completion of the Firefighter Recruit Academy.

Training:
