

Tempe Fire Department Policies and Procedures
Fire Maintenance Call-Out Procedures
602.04
Rev 3-12-97

PURPOSE

To define call out procedures for the department's fire mechanics.

DEFINITION

The fire mechanics are automatically paged on all working fires in the City of Tempe. They share "on call" status after hours, weekends and holidays with the Senior Fire Mechanic on call in odd months and the Fire Mechanic on call in even months.

PROCEDURE

Other than working fires or automatic paging from the Alarm Room, fire mechanics can be paged out at the following pager numbers:

Senior Fire Mechanic: 215-0008

Fire Mechanic: 215-0003

Should an emergency apparatus repair be necessary after hours, contact the Alarm Room to page the on call fire mechanic with the unit I.D., location and a brief description of the problem. Use of the assigned apparatus cellular telephone can be a valuable tool should you need to speak directly to a fire mechanic prior to his arrival. Should you feel this would be critical, ask the Alarm Room to add your apparatus cellular telephone number to the paged message.
