

## Weigh in on streetcar route

Valley Metro and the City of Tempe continue to advance Tempe Streetcar, a 2.6-mile modern streetcar project, and will seek community input on two potential route alternatives this spring and summer.

The Federal Transit Administration has continued to express interest in the streetcar project with slight modifications to the route to better fit the new federal funding criteria.

The modified project would still include the one-mile downtown Tempe loop on Mill and Ash avenues and a leg south to Apache Boulevard. Additionally, these two route modifications are being explored:

### Apache-Rio Salado

Rio Salado Parkway west to Mill Avenue, downtown loop to Apache Boulevard, east to Rural Road

### Apache

Downtown loop to Apache Boulevard, east to Terrace Road

For additional information and meeting notices, visit [www.valleymetro.org/tempestreetcar](http://www.valleymetro.org/tempestreetcar) or join the Tempe Streetcar email distribution list. Email Lisa Procknow at [lprocknow@valleymetro.org](mailto:lprocknow@valleymetro.org) to sign up.

## Residents offer opinions in annual survey

Tempe residents have voiced significant satisfaction and offered valuable feedback about the services, programs and facilities provided in our community.

In late 2012, the city's Community Attitude Survey was mailed to 2,400 households and 816 responses were received. This level of participation is enough to provide a statistically valid sample that can be extrapolated to generally reflect the feelings of all residents. Residents weighed in on questions related to water service, parks, trash collection, public safety and more. Each year, the survey serves as a tool to assist the City Council and city staff in setting priorities, dedicating resources and establishing goals to improve service.

For the sixth year in a row, Kansas-based ETC Institute conducted the survey and compared Tempe to the results of surveys done with nearly 4,000 residents across the country, as well as surveys administered by the company to 35 other medium-size cities. Tempe rated above ETC's national average in almost every area that was assessed. Complete survey results are available at [www.tempe.gov/residentsurvey](http://www.tempe.gov/residentsurvey).

The 2012 survey shows areas with high satisfaction ratings as well as areas that could be improved. Residents voiced feelings that, in 2013, it is most important for the city to focus on crime prevention, enforcement of property maintenance codes and the appearance of private property.

For the first time, residents were asked a series of questions to gauge their perceptions about events downtown and at Tempe Town Lake. Seventy-three percent of residents indicated they had attended one to three events downtown in the last year, while 71 percent responded that they had attended one to three events at Tempe Town Lake. About 76 percent of residents said that special events downtown and at the lake have a "very positive" or "positive" impact on the community.

## Donate water for Tempe's homeless

Summer is coming and we all know the effects of the harsh Arizona sun. Homeless individuals and families are particularly vulnerable during this time of year. Tempe Community Council (TCC) is conducting a water drive for Tempe's homeless providers. You can help provide heat relief for those in need by donating bottled water or money throughout the summer at the TCC office, 34 E. Seventh St. Weekday office hours are 8:30 a.m. to 4:30 p.m., excluding Memorial Day, Independence Day and Labor Day. For more details, call 480-858-2300 or visit [www.tempecommunitycouncil.org](http://www.tempecommunitycouncil.org).

One Call to City Hall

480-350-4311

E-Mail: [Tempe311@tempe.gov](mailto:Tempe311@tempe.gov)

## City to make courtesy calls to water customers with delinquent accounts

Starting this month, the City of Tempe will begin leaving automated phone messages for residents who are severely past due on their water accounts, in an effort to reach them with last warnings before shutoff. The calls allow residents who are more than 56 days past due to become current on what they owe before city employees are dispatched to shut off the water.

Tempe's Customer Services Division invested two years ago in a new computer system that enables the city to better serve utility customers in many ways, including allowing households to go paperless and pay bills online. The courtesy calls are another element of added value and functionality provided by the system.

Any customer who is 56 days past due gets a written notice of delinquency in the mail, declaring that they have two weeks to pay the bill before shutoff. Tempe has found that most customers whose water is eventually shut off end up calling in their payments the same day, necessitating a city worker to go out to the home twice – once to shut the water off and once to turn it back on. In addition, the resident is charged a \$15 reconnection fee if this happens. The city hopes the courtesy calls will help residents and make city operations more efficient by reducing the number of actual shutoffs.

During the two-week period after written notice is mailed to the customer, the city will call the home or cell phone with an automated message. If no one picks up the call, there will be three total attempts. The process applies to residential and commercial water customers.

Residents who are encountering difficult financial times and need to seek out assistance with paying water bills can contact the Tempe Salvation Army (480-222-0690) or Tempe Community Action Agency (480-350-5880) to determine if there are programs available to help.

## Golf Tempe offers summer deal for junior golfers

This summer, junior golfers – those 17 and under – can get two months of unlimited golf at a cool price of just \$150 at Ken McDonald or \$100 at Rolling Hills. That's a savings of more than \$40. Visit [www.tempe.gov/golf](http://www.tempe.gov/golf) for more information, or call Ken McDonald at 480-350-5250 or Rolling Hills at 480-350-5275. Golf Tempe promotes community-based golf that is affordable, accessible and adds to our quality of life as a lifetime leisure activity.

## Capital improvements are vital – and so is your input

*By Mayor Mark Mitchell*

Putting together Tempe's annual budget is one of the City Council's greatest responsibilities because what we agree to today guides and shapes the city for years to come.

Currently, my Council colleagues and I are developing Tempe's operating and capital budgets for the 2013-14 fiscal year, which starts July 1.

Tempe's budget has two parts – operating and capital improvements. The operating budget includes the General Fund, among other funds, and covers day-to-day operations of the city. The Capital Improvement Program (CIP) uses secondary property taxes and utility user fees to repay bonds that fund repair and construction projects.

Tempe's CIP is a five-year financial framework. Capital projects are scheduled throughout the five-year plan, and only those projects scheduled in the first year receive funding. Projects in remaining years help to serve as a guide for future planning and are subject to further revision.

The CIP budget is critically important in how cities plan for growth. It consists of a list of proposed projects that can range from street improvements to the acquisition of automated water meters to the replacement of laptops used by Police officers when responding to 911 calls.

The last few years have been tough on the city and our residents. The downturn in the economy forced cuts to city services and staff, and the city was no longer able to fund any new CIP projects. I have often said that one of the biggest challenges that Tempe has is maintaining and improving what we have. While we've seen an uptick in our local economy, especially over the past six months due to our extensive business attraction efforts, Tempe staff continues to recommend primarily projects necessary to maintain or replace our existing assets.

However, there are several proposed projects that Tempe residents can get excited about. For instance, the CIP contains a proposal for \$16 million in improvements to our parks over the next five years, including things like equipment replacement and restroom and ramada renovations. There is recommended funding for the construction of several pathways, including the El Paso Gasline Path, the Highline Canal Path and the Rio Salado Southbank Path, which all residents will be able to enjoy. Finally, the proposed CIP includes funding for a Regional Bike Share program so that Tempe can join multiple cities such as Phoenix and Mesa, as well as Valley Metro. All of these projects represent an investment in our quality of life.

I hope that you will take the time to review our proposed Capital Improvement Program and share your ideas for future projects that will keep Tempe moving forward.

Please visit Tempe Forum at [www.tempe.gov/forum](http://www.tempe.gov/forum) to comment on Tempe's Capital Improvement Program. For budget information, please visit [www.tempe.gov/budgetplan](http://www.tempe.gov/budgetplan).

As always, I invite you to contact me with any questions, ideas or concerns. I can be reached at 480-350-8793 or [mark\\_mitchell@tempe.gov](mailto:mark_mitchell@tempe.gov).

## Changes to bulk and green waste collection

Tempe will begin a new bulk and green waste collection schedule in July, moving from monthly collection to six collections each year. Four of the collections will be dedicated to green waste only and two will be for mixed waste. New collection schedules will be mailed in May, with a calendar indicating collection weeks and whether they're green or mixed waste so residents can plan accordingly. Bulk/green collection schedules are available at [www.tempe.gov/bulkwaste](http://www.tempe.gov/bulkwaste).

## Send your kids to camp in Tempe!

Keep children engaged and entertained this summer by sending them to summer camps in Tempe. The city offers a variety of summer camps from sports and special interest to full-day enrichment and adapted recreation programs. Camps are held at convenient locations throughout the city and schedules vary with full-day, part-time and one-week options. For more information about Tempe summer camps, visit [www.tempe.gov/summercamps](http://www.tempe.gov/summercamps) or call 480-350-5200.

## National CPR Awareness Week begins June 1

June 1 kicks off Cardiopulmonary Resuscitation (CPR) Awareness Week in Tempe. The purpose of CPR Awareness Week is to educate and promote the lifesaving skill of knowing CPR.

Sudden cardiac arrest can strike anyone at any time. A victim's survival depends on the people around them. CPR doubles or triples survival rates for those suffering sudden cardiac arrest. Training more people to perform CPR increases survival by enabling bystanders to handle an emergency.

According to [www.heart.org](http://www.heart.org), every year between 250,000 to 300,000 people in the U.S. die from sudden cardiac arrest. Unlike in heart attacks, people who suffer sudden cardiac arrest may have little or no warning, and the disorder usually causes nearly instantaneous death. Without immediate CPR, the chance of surviving out-of-hospital cardiac arrest drops up to 10 percent for each minute that passes without defibrillation. This means that by the time EMS personnel arrive on the scene it could be too late. Get more information about CPR at [www.redcross.org](http://www.redcross.org)

## Tempe's blue bins turn 20

This year, Tempe celebrates 20 years of providing curbside recycling to more than 33,000 households. That's 20 years that Tempe residents have been rolling their blue barrels out to the curb once a week, diverting well over 200,000 tons of solid waste from the landfill.

The city's curbside, commingled recycling program began in February 1993, making Tempe the first city in the Valley to have a citywide curbside recycling program. Prior to that, the city first ventured into recycling in 1988 by providing neighborhood drop-off locations where residents could deliver their recyclables, with separate bins for different materials.

In 1989, Tempe tested curbside recycling with a pilot program in two neighborhoods – The Lakes and north Tempe – using rectangular bins with separate compartments for glass, aluminum and paper. A year later, the city tried out comingled recycling – with just one bin for all materials – in two other neighborhoods, expanding citywide in 1993.

John Osgood, now Tempe's Deputy Public Works Director for Field Operations, said that Tempe received about \$600,000 in 2012 in return for recyclable materials, helping to offset rising operations costs.

"Recycling and repurposing is sensible and sustainable – it just makes good business sense," Osgood said. "As a community, we pay to throw things away and we get paid to recycle."

In addition to single-family homes, Tempe now provides recycling services for more than 100 apartment complexes and 150 businesses. The city has been diverting the discarded tires it collects for use in rubberized asphalt for more than 15 years, and repurposes old asphalt for dust-control on unpaved surfaces such as alleys.

Tempe has a pilot green waste program with several neighborhoods to turn landscape clippings from residents' yards and city parks into nutrient-rich compost. That program is set to expand citywide in July. The city last year began recycling textiles (clothing and linens), collecting more than 10,000 pounds in 2012. Residents can recycle textiles at six neighborhood drop-off locations in Tempe.

Tempe residents can take unused hazardous and household products – such as pool chemicals, paint and pesticides – to the city's Household Products Collection Center, 1320 E. University Drive. The center was the first permanent facility built in Maricopa County specifically for the removal and proper disposal of household hazardous waste, helping to keep these items out of our sewer system, storm drains, landfills and, ultimately, our groundwater.

Tempe holds two community recycling events each year – in April and November – where residents can bring all kinds of recyclables, including electronic waste, appliances, household products, documents for secure shredding, used athletic shoes and more, as well as get free compost.

For more information about Tempe's recycling programs, visit [www.tempe.gov/recycling](http://www.tempe.gov/recycling).

# Calendar

**This is the tentative May/June schedule for Tempe City Council meetings.**

## **May 7, 2013**

4 p.m. City Council Strategy Session

## **May 9, 2013**

6 p.m., Issue Review Session  
7:30 p.m., Council Meeting

## **May 30, 2013**

6 p.m., Issue Review Session  
7:30 p.m., Council Meeting

## **June 11, 2013**

4 p.m. City Council Strategy Session

## **June 13, 2013**

6 p.m., Issue Review Session  
7:30 p.m., Council Meeting

## **June 27, 2013**

6 p.m., Issue Review Session  
7:30 p.m., Council Meeting

## **Meetings are aired live on Tempe 11 and [www.tempe.gov/tempe11](http://www.tempe.gov/tempe11).**

City Council meetings are held in the Council Chambers at City Hall, 31 E. Fifth St. Agendas are posted 24 hours before each meeting outside the Council Chambers and on the second floor of City Hall. Meetings are subject to change. Confirm dates and times with the City Clerk's Office, 480-350-8241 or at [www.tempe.gov/clerk](http://www.tempe.gov/clerk).

# News you can use

## **Teach your child to swim this summer!**

The Kiwanis Recreation Center urges you to teach your children to swim; it's the best way to stay safe in the water. The center, located at 6111 S. All-America Way in Tempe, prides itself on teaching children and adults water safety through its learn to swim lesson program and offers classes on weekdays and nights as well as Saturdays. Swim lessons are available for children as young as eight months old up to adults. Each weekday class consists of eight sessions and is offered in the evening for \$46. Participants also have the option of six sessions on Saturday mornings for \$35. Classes are available for all skill levels, no experience is required.

In each class, students will learn valuable exercises and skills that include:

- Water safety and skills
- Swimming techniques and strokes
- Developing correct technique and confidence building

Space is limited, so reserve your spot today! Visit [www.tempe.gov/kiwanis](http://www.tempe.gov/kiwanis) or call 480-350-5201 for more information.

## **ROAR! Wild Wednesdays return to the Tempe History Museum**

Kids ages 3-12 can learn What Museums Collect this summer as they take over the Tempe History Museum on Wild Wednesdays. Every Wednesday offers a new set of activities that include touching durable artifacts, making crafts, scavenger hunts, performances, demonstrations and other hands-on fun.

Wild Wednesdays happen from June 12 to July 31, except July 4. All activities are free, as is admission to the museum. The Tempe History Museum is located at 809 E. Southern Avenue, next to the Tempe Public Library. For more information, visit [www.tempe.gov/museumevents](http://www.tempe.gov/museumevents) or call 480-350-5100.

## **Movie buffs unite at the Tempe Public Library**

Love to talk about movies? Participate in a lively discussion about how favorite printed works of both the past and present are filmed at the Tempe Public Library. Fred Linch, who has run the Palm Springs Film Festival and the Phoenix Jewish Film Festival, will show clips of the featured film of the week and start the dialogue.

2 p.m., June 1 - Never Cry Wolf (Farley Mowat)

2 p.m., June 15 - My Fair Lady (Pygmalion by George Bernard Shaw)

2 p.m., June 29 - To Have and Have Not (Ernest Hemingway)

The discussion is free and no registration is required. The Tempe Public Library is located at 3500 S. Rural Road. For more information, visit [www.tempe.gov/library](http://www.tempe.gov/library) or call 480-350-5500.

## **Readers win with Summer Reading Program at Tempe Public Library**

Summer is the perfect time to pick up those books that the kids didn't have time to read during school. The Summer Reading Program at the Tempe Public Library runs through July 27. Earn prizes! It's free for anyone under 18. Visit [www.tempe.gov/youthlibrary](http://www.tempe.gov/youthlibrary) for a schedule of reading events and activities. The Tempe Public Library is located at 3500 S. Rural Road.

## **Water exercise is back**

For the third year in a row, seniors can sign up for a free water exercise class at the Escalante Senior Center pool. Classes are on Wednesdays, from June 5 through July 31, from 9:45 to 10:45 a.m. To sign up, call 480-350-5870 or stop by the Senior Center, located at 2150 E. Orange St. Classes are limited to 18 people, so registration is required.

## **Double the waves, double the fun at Kiwanis Wave Pool**

This summer, enjoy double the waves at the Kiwanis Wave Pool, located at 6111 S. All-America Way in Tempe. The wave pool is open seven days a week in June. It is open Monday through Friday from 1-5 p.m. Saturdays in June, the pool will host two wave pool sessions from noon-3 p.m. and 3:30 to 6:30 p.m. That means double the fun for you and your family! The wave pool will also be open Sundays from 1-5 p.m. Admission for swimmers 13 years and older is \$7 and children 2-12 years old is \$5. For more information visit [www.tempe.gov/kiwanis](http://www.tempe.gov/kiwanis) or call 480-350-5201 or 480-350-5050 TTY.

## Tempe Beach Splash Playground

The Tempe Beach Splash Playground will be open seven days a week starting Memorial Day weekend until the end of July. The hours are 10 a.m. to 7 p.m. The splash playground is located near Tempe Town Lake, at Rio Salado Parkway and Mill Avenue.

## Swim, splash and beat the heat this summer in Tempe

Don't sweat the summer! Keep your family entertained and beat the heat at Tempe's affordable and fun pools and splash playground.

- Kiwanis Wave Pool is now open on weekends and, beginning May 27, the pool's 3-foot waves will return daily. Throughout the season, Kiwanis offers special theme days and deals. For a full schedule and special offers, visit [www.tempe.gov/waves](http://www.tempe.gov/waves).
- The Splash Playground at Tempe Beach Park, a one-acre splash playground with water features and toys, will open this month. Admission is free. Neighborhood spray pads, conveniently located at Esquer, Jaycee and Hudson Parks, will also open in May.
- Escalante outdoor swimming pool is another great way to cool off this summer. Opening Memorial Day weekend, the pool features a six-lane lap pool, zero-depth entry play pool with play equipment, and two slides.

Visit [www.tempe.gov/pools](http://www.tempe.gov/pools) for pool hours and special events.

## Help keep pools and splash playgrounds clean

We need your help to keep our pools and splash playgrounds clean this summer! Follow these simple hygiene guidelines provided by the Centers for Disease Control and Prevention to ensure a fun and healthy summer swim season for you and your entire family:

- Adults and children who are sick or have recently been ill should avoid public pool facilities.
- Children not yet potty trained should wear plastic pants or swim diapers.
- Children should take several restroom breaks throughout the visit.
- Visitors should not swallow the water in the pools or splash playgrounds.

## Double the waves, double the fun at Kiwanis Wave Pool!

This summer enjoy double the waves at the Kiwanis Wave Pool, located at 6111 S. All-America Way, in Tempe. The wave pool is open seven days a week in June. It is open Monday through Friday from 1-5 p.m. Saturdays in June, the pool will host two wave pool sessions from noon-3 p.m. and 3:30-6:30 p.m. That means double the fun for you and your family! The wave pool will also be open Sundays from 1-5 p.m. Admission for swimmers 13 years and older is \$7 and children 2-12 years old are \$5. For more information, visit [www.tempe.gov/kiwanis](http://www.tempe.gov/kiwanis) or call 480-350-5201 or 480-350-5050 TTY.

## Avoid getting overheated

Each year the Tempe Fire Department responds to a number of medical calls related to the effects Arizona's high temperatures. People suffer heat-related illness when body temperatures become overloaded. The body normally cools itself by sweating, but under some conditions, sweating isn't enough. In such cases, body temperature rises rapidly. Very high body temperatures may damage the brain or other vital organs.

To help avoid heat-related illnesses, remember these warm weather tips:

- Drink two to four glasses of cool liquid like fruit juice each hour during heavy exercise
- Avoid very cold beverages because they can cause stomach cramps
- Avoid drinks that contain alcohol
- Wear lightweight, light-colored, loose-fitting clothing
- Wear a wide-brimmed hat
- Apply sunscreen that is SPF 15 or higher 30 minutes before going outdoors
- Avoid hot foods and heavy meals as they add heat to your body
- Do not leave infants, children or pets in a parked car
- Dress infants and children in cool, loose clothing and shade their heads and faces with a hat
- Limit sun exposure during the mid-day hours

# Refresh your memory about water safety

June is Water Safety Month in Tempe. The Tempe Fire Department wants to remind people that drowning can happen in an instant and not just in swimming pools. It can happen in canals, lakes, spas or bathtubs. Drowning prevention experts stress that layers of protection are key. Those layers include vigilant parents, pool fences with gates that self-latch, alarms and not drinking alcohol when swimming.

Too often people say “I only left for a second.” Sadly, just a few seconds is all it takes for a child to drown. Drowning is one of the leading causes of death for children under the age of four in Arizona. Most children drown in their own pools, but children also drown in buckets, toilets, bathtubs, fish tanks, and ponds. And it only takes two inches of water for a child to drown. Near drowning is also very tragic and can cause permanent brain damage. Adults often drown in spas and pools with alcohol consumption being a factor.

Drowning and near drowning can be prevented:

- Never leave a child unattended in or near a lake/canal, swimming pool, hot tub/spa, bathtub, toilet or bucket of water.
- Maintain constant eye-to-eye supervision when a child is in or around water.
- Keep toys, tricycles and other play items away from the pool or spa. Keep tables, chairs and ladders away from pool fences.
- Don't consider your children to be “drown-proof” because they have taken swimming lessons or because they are wearing/using flotation devices.
- Make sure your pool or spa has an effective barrier, such as a fence, wall, or locked gate that helps to guard against unauthorized access.
- Gates should have self-closing, self-latching mechanisms. Latches need to be out of reach of young children. Check placement of doggie doors for direct access to pool area.
- Mount lifesaving devices near the pool.
- Always empty any bucket when it is not in use. Five-gallon industrial buckets are constructed of heavy, rigid plastic and pose a threat to young children. The large size and heavy construction of the bucket, as well as a child's center of gravity and underdeveloped coordination, make it difficult for a child to get out of the bucket.
- Children must be supervised while bathing. Leaving a child in charge of a younger sibling is not acceptable. Many tragedies occur when the child is left alone in the tub for “just a few seconds.” Immediately empty the bathtub once the bath is finished.
- Children have also been known to drown in toilets. Because of a toddler's head and body weight distribution, the child that reaches into the toilet and falls in head first may not have the strength to escape. Safety latches for toilet seats are recommended.

Watch our water safety videos at <http://bit.ly/RrQHYN> and <http://bit.ly/W9yHjx>. For more information, visit [www.tempe.gov/fire](http://www.tempe.gov/fire).

## Tempe residents: know which fireworks are legal before you celebrate

Celebrating with sparklers in Tempe this July 4th is allowed, but the Tempe Fire and Police departments remind residents that many other types of fireworks are illegal to use within city limits.

A state law that took effect in 2011 allows for the sale of consumer fireworks at retail and temporary locations, while still allowing Arizona cities and towns to ban their use. In 2010, the Tempe City Council joined several other communities across the state in banning the use of consumer fireworks to prevent injuries and fires.

Novelty fireworks are still allowed to be used in Tempe; they include handheld sparklers, smoke devices, party poppers, snappers and snakes. Consumer fireworks are illegal to use within city limits; they include ground-based sparklers in cylindrical, square, cone or rocket shapes, as well as aerial fireworks like roman candles, firecrackers, sky rockets and bottle rockets. Watch our video about legal fireworks in Tempe at <http://bit.ly/PR22eu>

The penalty for violating the city's ordinance is a minimum fine of \$250. The ordinance also allows Tempe to recoup expenses if emergency services are needed in conjunction with the use of consumer fireworks.

## Giving makes us great

Tempe Community Council has a list of volunteer and giving opportunities available in and around Tempe this summer. We have neighbors in need and we all have something to give. Go to [www.tempecommunitycouncil.org](http://www.tempecommunitycouncil.org) and click on GIVE HELP to learn how you can make a difference, or call 480-858-2300.

## With the heat comes monsoon season

Often striking suddenly, monsoons cause flash floods, lightning, strong winds, dust storms and hail. Lasting from about June 15 until Sept. 30, monsoons are a weather condition of extreme heat followed by increased moisture leading to daily rounds of thunderstorms.

Dust storms and flash floods caused by the monsoon contribute to numerous car accidents. Motorists should not ignore warning signs and barricades because they can get trapped in flooded washes causing expensive and dangerous rescue operations by emergency personnel.

In addition, strong winds destroy roofs, knock down utility poles and create power outages. You should never touch a downed power line. If you hear thunder, you are close enough to the storm and could be struck by lightning. The safest locations during a monsoon storm are sturdy buildings and metal topped vehicles. Do not stay in open areas or under trees.

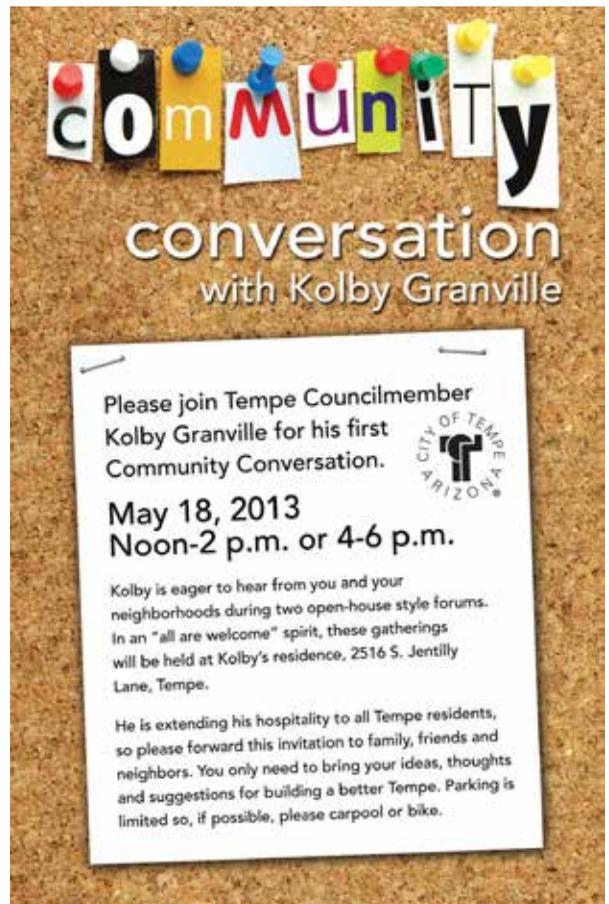

To prepare at home, make a safety kit containing a flashlight, battery-powered radio, food and water, first-aid supplies, clothing, bedding, an extra set of car keys and money. Don't forget special items for family members such as diapers, baby formula, prescriptions, eyeglasses, hearing aids and pet supplies.

The best way to prevent damage to flat roofs during storms is to keep drains clear of debris. During the monsoon season each year, several Tempe homes and businesses with flat roofs experience collapses that result in thousands of dollars in damage. Flat roofs on businesses and homes depend on a clean and unobstructed drainage system. Over time, these roof drains become clogged with debris that should be removed prior to the monsoon rains. This simple maintenance practice prevents major damage to structures, saves lives and allows for uninterrupted business activities.

For more information, visit [www.ready.gov](http://www.ready.gov) to get tips for 72-hour preparedness.

## School registration continues in June

Tempe Elementary School District staff will register students at the district office this summer. Registration for in-district and out-of-district students in kindergarten through eighth grade takes place June 3 through July 10, each Monday, Tuesday and Wednesday, from 7:30 a.m. to 4 p.m., at the Sanchez Administration Building, 3205 S. Rural Road. Registration resumes at each school's office on July 17. For more information about enrollment, call 480-730-7480 or visit [www.tempeschools.org/enrollment](http://www.tempeschools.org/enrollment).

## Councilmember Granville hosts gatherings on May 18

Councilmember Kolby Granville will host two gatherings for community members on Saturday, May 18, at his home, located at 2516 S. Jentilly Lane, Tempe. Residents are invited to attend and offer ideas, ask questions and connect with other community members. On-street parking is limited; carpooling, public transit and biking are encouraged.
