Comments:

Hardy Ave - Love the project (wish we could have something similar down @ my end of Hardy!)

Univ. Ave - Love the concepts Can one of the designs feature bikes? (to balance w/ the pets and cars?)

Comments:

- Love all the bus ~~sh~~ shelters
- Love the idea of ivy on the shelters
- think even more trees should be planted
- all bus shelters should do ivy (w/ BEE-less flowers)
- ~~at~~ 13th St intersection is brutal → no shade while crossing hardy. Another canopy ~ tree on the corner. Expand the sidewalk b/c the poles take up the corner sidewalk
- sculpture
- ↳ the tree at ~~bucks~~ bucks on hardy/university → make sure no branches/pinwheels are tall enough so bicyclists aren't scratched/nut by branches, etc

* at university + harvard

→ POT HOLES

Fill em

thx

Comments: Love the enhanced sidewalks /
landscaping. Dislike the roadway
crossings with words like "beep beep"
the colors are obnoxious and stressful.
I don't feel like they belong in
the neighborhood, you literally could
come up with 1,000 better designs
to enhance pedestrian crossings!

Comments:

I like that the local vegetation
(paloverde trees) is being used.
I like it!

Comments:

^{proposed}
1. The median in the 90% drawings in front of my house 1614 S. Hardy will probably negatively impact my ability to ^{set in} and ^{and} back out of my driveway; by blocking the center lane and obscuring oncoming traffic. I would like to see it moved northward (or shortened).

2. The power poles on the west side of Hardy are located very close to the western (property) edge of the sidewalk. I feel it would make more sense to offset the sidewalk toward the street instead of all the way further into the easement in residents front yards.

Comments:

It seems that the sidewalk is too wide
in areas, for a low pedestrian traffic area. The addition
of vegetation is always welcome but for the amount of pedestrian
use, it seems excessive to widen so much. The Green bike lanes
at intersection are a good idea as well.

Comments:

This is fantastic! Can't wait to see
Hardy Drive transformed.

Cool, interesting art project — works well
with the abundant public art in Mitchell Park
E + W, and Maple-Ash.

We're becoming an Arts District —
I love it!

~~AND~~ I LOVE THE ARTIST'S APPROACH

AND HOW WELL UNIQUE NATURAL LANDSCAPE IS ECHOED IN THE WORK

A VERY COMPLIMENTARY & MEMORABLE APPROACH! THIS MAKES FOR A UNIQUE

SENSE OF PLACE ON THE STREET AND

INTEGRATES THE STREET INTO THE

NEIGHBORHOODS & CREATES AN APPROACHABLE

~~AND~~ HUMAN-SCALED DESIGN -

WOOO!

S.

Comments:

I really like the Palo Verde design -
especially the yellow flowers / pinwheels.

Bus shelters look good, but I wish they
could be done on University too.

Comments: I'm so glad you're adding art to Hardy!

Hardy - I like the art columns and green screens.

- Please make sure the green screens don't fill in so much that they provide a hiding place for people.

I like the ~~over~~ overhead use of

the green screen. The bird and plant references are good.
What other types of birds/plants will be referenced?

- The pinwheels on the tree look interesting as a tie-in to bicycles and nature. How thick will they be? Like the sample? If so, will any be attached low enough for people to reach?

~~double these~~ Will they be kinetic or fixed?

Like THE COVERED BUS STOPS, SHADED GOOD IDEA. WISH THAT THE SEPARATED BIKE PATH WENT ENTIRE WAY BUT VERY HARDY IT APPEARS TO BE BETTER MARKED. LIKE MEDIANS, SHOULD SLOW DOWN TRAFFIC. TREES ARE GREAT HELD SHADE PDS + BIKES. REALLY LIKE THE PROTECTED CROSSWALK @ LAIRD + ELNA RAE STREETS.

Comments:

The only issue that I can see would be the left turn out of the plaza on the ~~SE~~ SE corner of Hardy & University. This for me is a minor inconvenience considering all of the other improvements. I really like the bus stops that are presented. I would also like to have the signalling at 13th & Hardy be more sensitive to cyclists as you can wait a very long time on 13th St. waiting for the lights to change. I also like the "Toucan" crossing at Elna Rae & Hardy.
