Tempe's Bulk Trash and Green Organics Recycling Program

Tempe's Bulk Trash and Green Organics recycling program now offers recycling solutions for your yard clippings and tree trimmings. Please check the 2017 schedule and follow these guidelines for bulk trash and green organics collections.

MIXED BULK TRASH

Mixed Bulk trash is waste that is too large or bulky to fit in your garbage container and the material goes to the landfill. This service is provided six times a year, every other month.

- Furniture
- Other household items that cannot fit in the black container
- Non-Freon appliances
- Yard waste (oleanders, palm fronds, bagged grass, weeds)
- Green organics that are not set aside for composting

Collection Day Instructions – Bulk Only Collection Months

If you have Alley service:

Place all items in the alley adjacent to your wall so the collection vehicles can pass.

If you have Curbside service:

Place pile at the curb for pickup.

MIXED BULK TRASH

GREEN ORGANICS

SEASONAL GREEN ORGANICS PROGRAM

Green Organics is vegetation that will be diverted from the landfill and turned into compost. This service is provided seasonally, three times per year to coincide with the growing and trimming seasons. Proper placement of acceptable Green Organics helps prevent contamination and ensures it is diverted from the landfill and composted.

- Tree trimmings, branches and brush (cut into four-foot lengths and less than 19 inches in diameter)
- Leaves, pine needles and small hedge clippings (placed in cardboard box or clear, compostable bag)
- Cactus clippings (placed in cardboard box)
- NO OLEANDERS, PALM FRONDS, GRASS, WEEDS OR ITEMS IN PLASTIC BAGS – these items cannot be composted and should be placed with bulk trash.

Collection Day Instructions – Seasonal Green Organic Collection Months

If you have Alley service:

Place green organics pile in the alley and keep separate from your bulk trash pile. Please consider placing your items out the weekend immediately prior to the start of your collection week to reduce contamination and increase diversion from the landfill.

If you have Curbside service:

Place pile at the curb and keep separate from your Mixed Bulk Trash pile.
