

City of Tempe Recycling Program

The City of Tempe provides comprehensive waste and recycling collection services for businesses. We want to be your local choice provider and will accommodate your collection and disposal needs. By choosing to support local business today, you are investing in a sustainable future for tomorrow. Keep your dollars local and support schools, parks, libraries and a vibrant community.

If you receive City of Tempe trash service there is no charge for weekly recycling collection service. For a limited time we will provide recycling containers at no charge. Recycling in Tempe is so easy; just toss all acceptable recyclables in the blue bin. All recyclables must be clean, dry, and empty, and remember if in doubt of what can be recycled, please do not recycle it. Contamination is a health hazard and is costly to process. To sign-up for recycling services and obtain a list of acceptable recyclable materials refer to: www.tempe.gov/recycling or call (480) 350-4311.

For businesses that do not receive Tempe's commercial disposal services there is a monthly fee for recycling. If you would like information on commercial trash disposal service call or email: tempe311@tempe.gov or call (480) 350 4311.

We also provide cardboard, construction and demolition recycling and roll-off container rentals for your construction projects.

Tempe offers two types of plastic recycling containers, a 95 gallon container with wheels and a 300 gallon container with no wheels. Front load metal containers are available upon request.

**95 gallon container
With/wheels**

**300 gallon container
No/wheels**
