

Security Begins at **HOME!**

Only **YOU** Can Protect Your Computer

Andrea Gattorna

Identity Theft

- Federal officials and consumer groups estimate there are between 500,000 and 700,000 cases of identity thefts each year costing victims over \$765 million annually. Last year, identity theft was the number one consumer complaint to the Federal Trade Commission.

Scared yet?

According to ftc.gov, which state has the most/ least ID theft victims?

State with *Most*
Victims Per 100,000 Population

State with *Least*
Victims Per 100,000 Population

The Basics

- Passwords
- Cookies
- Web Page Security
- Browser Settings
- Firewalls

Spyware

- What is it?
- Who has it?
- How do you get it?
- New laws

1 question: How do I get rid of it?

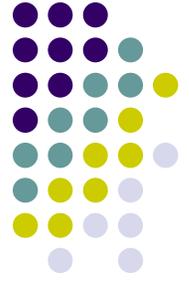

Virus

- What is it?
- How do I know if I've got one?
- How do you get it?
- How to I prevent it?
- The future.....

How do I get rid of it?

Spam

- Why is it called Spam?
- How did they find you?
- How do you get off the lists?
- Can't it be stopped at the server?
- How do I get Spam from friends?
- What can I do about it?

The Phishing Game!

**TRUTH
OR
FICTION?**

Truth or Fiction

Here is some important information. Beware of a file called Goodtimes. Happy Chanukah everyone, and be careful out there. There is a virus on America Online being sent by E-Mail. If you get anything called "Good Times", DON'T read it or download it. It is a virus that will erase your hard drive. Forward this to all your friends. It may help them a lot.

Goodtimes

Truth or Fiction

AND YOU THINK YOU'RE HAVING A BAD DAY AT WORK !!

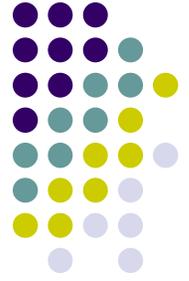

Although this looks like a picture taken from a Hollywood movie, it is in fact a real photo, taken near the South African coast during a military exercise by the British Navy.

It has been nominated by National Geographic as "THE photo of the year".

Truth or Fiction

A team of organized criminals is installing equipment on legitimate bank ATMs in at least 2 regions to steal both the ATM card number and the PIN. The team sits nearby in a car receiving the information transmitted wirelessly over weekends and evenings from equipment they install on the front of the ATM (see photos). If you see an attachment like this, do not use the ATM and report it immediately to the bank using the 800 number or phone on the front of the ATM.

The equipment used to capture your ATM card number and PIN is cleverly disguised to look like normal ATM equipment. A "skimmer" is mounted to the front of the normal ATM card slot that reads the ATM card number and transmits it to the criminals sitting in a nearby car.

At the same time, a wireless camera is disguised to look like a leaflet holder and is mounted in a position to view ATM PIN entries.

The thieves copy the cards and use the PIN numbers to withdraw thousands from many accounts in a very short time directly from the bank ATM.

ATM Scam
