

**MEETING NOTES FROM NOVEMBER 18, 2008**

**ATTENDEES:**

*Action Team Members Present:* William Harris (Vista del Cerro), Teresa Kevane (La Rosa), Nancy Lesko (Solana – west), Chris Carr (Encanto – east), Phil Brown (Ventura – north), Mark Rentz (Sierra Vista), Justin Roth (El Camino), Steve Tseffos (Ventura – south), Ruben Valenzuela (Solana – east)

*Other Residents:* Brad McCurdy (LaRosa)

*City Staff:* Catherine Hollow (Traffic Engineering – Project Manager), Shelly Seyler (Traffic Engineering), Amanda Nelson (Community Outreach & Marketing)

**WELCOME & INTRODUCTIONS**

**FOLLOW-UP ON POTENTIAL FUNDING**

ACC at one time agreed to provide money for neighborhood traffic calming/mitigation. It is believed that a letter was written documenting this but no one is sure who received the letter. There is also a question about to which neighborhood(s) the money is targeted. Ruben Valenzuela agreed to investigate further.

**COLLEGE AVENUE COMMENTS**

Comments were received about the intersection of College and Encanto. The group was in agreement that the test devices should be removed and other options should be investigated.

**PRIORITIZING NEIGHBORHOOD CONCERNS**

To get an idea of priorities from the Action Team, the team members were asked to rank the top five concerns. Members were given a list based on the Neighborhood concern map to use for the rankings.

**IDENTIFY ALTERNATIVES**

Aerial maps were provided by the City for team members to use in developing alternatives. “Cut-outs” of traffic calming devices were also provided along with markers and colored pencils. The team members sketched ideas on the various streets throughout the neighborhood and reached consensus on several measures. Costs will be developed for these items for the next meeting.

**FUTURE AGENDA ITEMS**

- ◆ Alternatives
- ◆ Costs
- ◆ Input from the neighborhood at large

Next Meeting: December 16, 2008
