Date	Description	Amount
	Payments Received Thank You	58.99
11/23	Water Quality fee	0.05
11/23	Tempe City Tax	0.32
11/23	<u>Sewer Charge</u>	<u>16.47</u>
11/23	<u>Residential Refuse</u>	19.98

How to calculate the **sewer charge for a single family residential** customer:

For example:

- 1) Take the winter average\* x Return Rate  
 (10,400 x 0.90 = **9,360**)
- 2) Divide the sum by 1000  
 (**9,360** / 1000 = **9.36** | Charges are based on per 1,000 gallons)
- 3) Multiply the sum by per gallon charge  
 (**9.36** x \$1.76 for single family = **16.47**)

\*Winter average will vary for each customer. Please contact the Customer Service Office @ 480-350-8361 for you winter average calculation.

\*Winter Average is applied to sewer billing
