~ Helpful tips for a complete irrigation to your property ~

- ✓ Inspect area, build berms and grade property as needed. Water should always be forced to spill safely into a street or alley rather than enter a structure, patio, storage shed etc.
- ✓ Pets must have refuge from the area to be irrigated.
- ✓ Trim grass to less than six inches and remove debris from conduits.
- ✓ Remove items from the yard that may be damaged by flood water.
- ✓ Provide clear access to the irrigation valve.
- ✓ Please call Customer Service if you wish to skip one or more runs.
