COMMENTS:

This request includes a Code Text Amendment within the Zoning and Development Code, clarifying the land use regulations for fraternity and sorority houses. Currently, the Code allows a fraternity and/or sorority to locate within an R-3 or R-4, multi-family zoned district only and upon receiving approval of a use permit. The incorporation of special use standards are proposed to clearly indicate the current special standards for the land use, as well as clarify when an existing multi-family development is occupied by any fraternity and/or sorority, what percentage of the site would trigger the land use regulations. Staff recommends using the interpretation of when a use is ancillary to the primary use, set by other land use regulations and previous interpretations. A site occupied by 50% or more would require the use permit. In this case dwelling units is the factor for determining whether the use is either primary or ancillary to the main use.

PUBLIC INPUT

Staff has received one verbal communication with a resident, who asked for clarification on the changes and is in general support of the amendment.

Information on the original proposed amendment was forwarded to the Neighborhood Advisory Commission. No official commission position was taken. Some of the Neighborhood Advisory Commission members had expressed concerns with the proposed amendment. Comments included concern for the current situation of displaced fraternities from the ASU campus; and that the language identifies fraternities and sororities differently than other organizations. Concern was also expressed that the wording implied that members of each organization would be required to get a use permit.

On March 12th, 26th and April 23, 2013, the Development Review Commission recommended continuance of this request, in order to receive additional information and evaluation of the proposed changes presented. A summary of the comments expressed by the Commission include enforcement; whether or not these provisions are discriminatory; other City department involvement in this topic including subcommittees Police, Fire and the City Attorney’s Office; and defining a fraternity/sorority.

UPDATE TO CODE AMENDMENT

Staff has since revised the current proposed ordinance in this report. Some of the primary changes help clarify the following:

- When a fraternity or sorority use is located in another zoning classification, such as commercial or mixed-use district that may allow other residential uses.
- The language now states that more than 50% of the development units would trigger the requirement for a use permit.
- The wording of “any” fraternity and sorority was removed, and replaced with, “…members of the same fraternity...” The language would no longer imply individual fraternity members, which was not the intent. Members of the Development Review Commission had previously requested this change.
- The term “house” is removed from Fraternities and Sororities under the land use provisions. Whether the members are within a house, apartment, motel or other form of development style the ordinance is a regulation of the land use. The description of a “fraternity and sorority house” is an antiquated term.
- A security plan will be required, as reviewed by the Police Department, in order to address life safety measures.
- A new definition is proposed for the purpose of the Code.
Conclusion
Based on Section 6-304 C. Procedure, the proposed amendment is in the public interest and is consistent and conforms to the General Plan. Staff recommends approval of the Code Text Amendment, which will allow City staff to administer these land use provisions.
