Agenda Item 3 - Alexandria Project in the Library – presentation by Fred von Graf, Senior Venture Manager, Economic Development and Corporate Engagement, ASU Skysong

- Fred von Graf reported on:
  - Alexandria Network, a new ASU initiative that brings together inventors, problem-solvers, entrepreneurs and small businesses in collaboration spaces in public libraries across Arizona.
  - It combines elements of co-working spaces where citizens can gather to learn, collaborate and engage with like-minded individuals.
  - What it does for the library: reach a broader audience, minimal costs, encourages entrepreneurship and networking, reach remote and/or under served markets, generates buzz at the community level.
- Barbara Roberts stated: If the library chooses to participate as an Alexandria Project library, it is likely the Quiet Reading Room would be utilized as the space for this project. The only equipment needed would be a television screen for digital classes and communication; the room otherwise works well as it is now. Having ASU as a partner reaching out to small and emerging businesses would bring people who are not normally library users into the library.
- Library Board members were all supportive of joining ASU in this partnership. Barbara Roberts encouraged them to attend the grand opening of the Scottsdale Public Library Alexandria space on Thursday, May 2, 2013 at 2:30 PM.
