Chair Webb began the Study Session at 5:30 p.m. After a brief review and discussion, it was determined that the minutes could be approved as drafted, Item No. 2 could be placed on the Consent Agenda and due to significant design changes since the Hearing Officer denial of the Use Permit, Item No. 3 should be remanded to the Hearing Officer as a new application.

Nancy Ryan, Project Management Coordinator, provided an update on the status of General Plan 2040. The Commission provided brief feedback and requested further information from staff regarding the concept of public and private open space and how it should be incorporated into the General Plan, a map which would indicate the changes from GP2030 to GP2040, a map that would identify what properties are not required to comply with the General Plan and further information regarding high density residential designations.

It was suggested that since there were no cases scheduled for the next DRC meeting on September 24th, that an extended Study Session discussion could be scheduled to allow the Commission more time for discussion.

The Study Session adjourned at 6:15 p.m.
