FALL IN LOVE WITH TEMPE'S CLASSES & PROGRAMS

GET ACTIVE:

Get a jump-start on your New Year's resolutions by resolving to get fit this fall! Health and exercise classes are offered for all ages and all levels.

Teens & Adults

Did you watch the Olympics and wish you could be a gold medal runner? Join **Learn to Run** and improve your running form, strength, speed, endurance and flexibility all while preparing for 5K to Marathon races! No prior running experience is necessary.

If running's not your style, try one of Tempe's many Martial Arts Classes. **Aikido** will develop your discipline and self-control and will teach the basics of tumbling, escapes and techniques with focus on awareness and self-discipline. **Muay Thai Kickboxing** is a great class

for beginning boxers who will learn the basic fundamentals of this sport. **Fight Fitness** will give participants an intense, total-body workout with a combination of aerobics, boxing and martial arts to keep your body moving and burning calories.

Adults 50+

Discover **Thai Chi/Body Balance** this fall and help improve your overall balance, flexibility and strength, all while relieving stress! Thai Chi movements target the body's major joints and keep them healthy, while breathing exercises will help re-energize the body.

Or if you're looking to release your inner dancer, join **Beginning Tap for 50+**. This class covers basic tap steps and will help dancers put them together in a creative and fun routine. It's never too late to get active or try something new!

BE COMPETITIVE:

Whether you're a rookie looking for a fun game or a seasoned youth athlete wanting an edge on your competition, Tempe has a selection of sports perfect for the whole family.

Tots (0-5 Years)

Join **Little All Stars** for their fall line-up of sports programs, featuring activities for children ages 16 months to five years. Designed by a child development specialist, the program aims to strengthen gross motor, balance, coordination and social skills. Weekly classes offer games, obstacle courses and drills, focusing on a variety of sports like football, basketball and soccer.

Youth & Teens

Keep the kids active this fall by getting them involved with a new sport! Perfect for the beginning basketball player, [Small Ball Hoops](#) introduces athletes in Kindergarten through 3rd grade to the fundamentals of the sport. [Rec Hoops](#) offers older players in 4th through 8th grade the opportunity to compete in a positive and fun atmosphere.

If your child is more of a football fan, enroll them in [Passing Leagues](#), where they can become familiar with the game of football. Players will learn proper passing, catching, routes, kicking, punting and more.

Even if you're not a veteran athlete, there are opportunities for you to learn to be a fierce competitor. [Learn to Play Tennis](#) is now being offered at Kiwanis for athletes ages 7-15. All players enrolled in a September class will receive a free junior tennis racket.

LEARN SOMETHING NEW:

Going back to school is all about learning new things. For those not jumping back in the classroom this month, Tempe classes give opportunity to try something different and learn new things – without having to open a textbook.

Tots

Even if they're too young for back to school time, little ones can always find an opportunity to learn! Enroll your tot in a **Puterbugs Technology Class** where your 3-7 year old will discover basic concepts like using a mouse and keyboard, and advanced concepts like networks, satellites, wireless and the internet. Each class offers the opportunity to learn a new skill. Your toddler will be the next Bill Gates in no time!

Adults

Greek Salad, Chicken Piccata, Roasted Tomato Soup, Homemade Truffles... are you hungry yet? You don't have to be a world-class chef to make delicious delicacies. Join Tempe Chef JoAnne Groot for a variety of new **Cooking Demonstrations** and classes and learn how to add an exciting twist to your weeknight meals and party appetizers.

If you don't have the time to commit to a season-long class, try taking a one-time **10 Tips Workshop**, perfect for someone looking to learn something new in a shortened period of time. Topics include **10 Cleaning Tips for a Clean & Green Home**, where participants will learn about do-it-yourself cleaning techniques and environmentally friendly house cleaning products; **10 Tips for Homemade Personal Care Products** where participants will learn how to make their own baby and adult hygiene products; and **10 Food Tips for Talented Tastebuds**, a class all about feeding your family healthy and budget-friendly foods.

As these students move onto campus and into the city, they can get important information about being a good neighbor and learn the risks and penalties of underage alcohol use.
