Thank you, Tempe! Please implement this design concept.
1. What do you think of the final design concept?
   I like the center lane + landscaping, but reducing 1 lane on a major street is not a good idea. There is a lot of rush hour traffic heading east and it will be worse without that lane. Also, putting a wall up will bring graffiti to our street, taggers will have that wall spray painted with foul words.

2. Do you support a dedicated pedestrian crossing (with traffic signal) between Sierra Vista Drive and Ventura Drive?
   - Yes
   - No

3. Which wall concept do you prefer?
   - Neither—use large trees instead of a screen with Borodins

1. What do you think of the final design concept?

[Looks nice, but it seems very short-sighted to reduce Broadway road to 4 lanes. This will certainly create additional congestion in already congested Tempe.]

[No]

3. Which wall concept do you prefer?

[A patterned wall treatment like the one on Rural Rd]

4. Please indicate which describes you best.

Additional Comments: I love the beautifications, but please don't further restrict Broadway. Why are bus stops not bus pull-outs?

I live at Asplin/Ventura, the area where short cutters come thru at high rates of speed. Reducing a lane backs up traffic further west of Sierra Vista & invites cut thrus. Bike lane to Rural - then nothing??
