City Water Account Number

Please give a brief description of landscape prior to conversion:

Total Landscape Area of property (square feet) front yard rear yard

Total area of turf remaining Total low water use landscaping

Property Owner Signature Date

The City of Tempe is offering the Landscape Rebate Program to residents who install, or convert a front or back yard of grass to desert landscaping. Residents will be reimbursed .25cents per square foot. The City will require that a minimum of 30% mature plant coverage to be installed in the landscape or installation of artificial turf. Example for a front yard would be 1 tree and 5-8 low water use plants to be installed in the landscape or Artificial Turf. Please take a before picture of your existing landscape prior to starting your project. After the form is mailed in Conservation Staff will contact you to make an appointment to verify the square footage of area converted. The Rebate is available to owners of single family residential properties that receive water from the City of Tempe. Please mail completed application with the before photo and you will be contacted by Conservation Staff to set up a time to verify square footage. Landscape Design Guides, plant brochures and watering information are always available by calling the Conservation Program.
