The City of Tempe is offering the Toilet Rebate Program to reduce the amount of water used by its customers. By replacing existing toilets with Ultra-Low-Flow models not exceeding 1.28 gallons per flush, a rebate of 50% of the purchase price (up to \$75.00) will be provided for each toilet replaced. New construction is not eligible for a rebate. Tenants who wish to participate should contact their property owner/ manager. Toilet rebates require the consent of the property owner on the Toilet Rebate Application. It is the responsibility of the owner to insure proper installation. The City recommends that the installation be performed by a qualified plumber; and sewer line(s) be cleaned at the time of installation, if they have not been cleaned within the previous twelve months

Note: All rebates provided will be on a first come, first served basis, subject to availability of funds
