Decomposed Gravel Installation Program

The City of Tempe has negotiated with a vetted, locally-based company to provide decomposed granite installation services. This program provides Tempe residents with reduced rates for the preparation, delivery, and installation of decomposed granite.

Rates may vary depending on the size of the yard, and its current condition. Prices start as low as \$72 a ton for the decomposed granite. There is no minimum or maximum amount of decomposed granite to receive this deal. The negotiated rates are generally much lower due to the quantity of installations included in the program. Also, the City of Tempe procurement process ensures that the contractor is licensed, bonded and insured.

Note – The participating installation company is not employed by, or providing services on behalf of, the City of Tempe. This company is an independent contractor that has agreed to perform services related to the preparation and installation of decomposed granite for Tempe residents at a negotiated rate. Residents wanting to take advantage of this opportunity must contact the installation company directly. The City of Tempe is not party to any contract between the resident and the participating installation company. The City of Tempe does not guarantee the work of the company in any manner. Any billing or service related questions or concerns are to be addressed with the installation company directly, not the City of Tempe.
