

PUBLIC INPUT SUMMARY

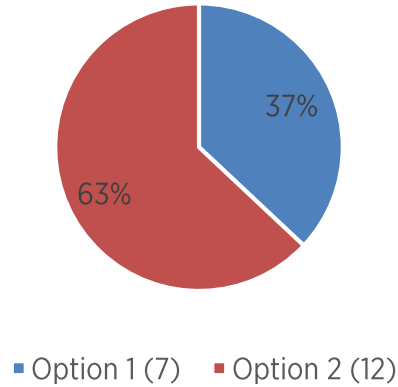

Overview

A public meeting was held on January 12, 2019 for feedback on planned improvements to Indian Bend Park. Residents in the area of McKellips to Curry, McClintock to Rural (1157 residents) were invited to participate in the process via postcard. Spanish translation services were noted on postcard. Notices and a poll were posted to Nextdoor to 246 households in 3 neighborhoods. Signs in English and Spanish were placed in the park announcing the public meeting. Four residents signed in at the meeting. Residents were asked to provide input on playground equipment design, ramada location and finishes, and park hours. Surveys in both English and Spanish were available at the meetings and online from Jan. 12, 2019 through Jan. 27, 2019. A total of 21 survey responses were received; 2 at the meeting and 19 online, 1 from outside the mailing area.

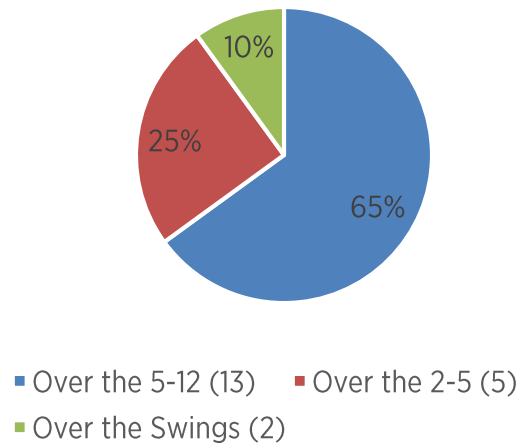

Map of Survey Respondents

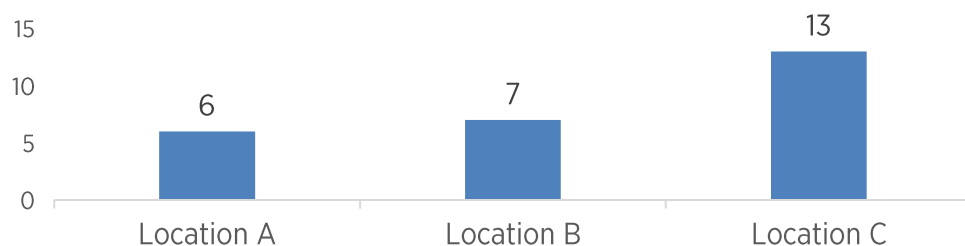

- Improvements to the playground will include new picnic ramadas, a 5-12 play structure, shade, lighting, accessible sidewalks and additional trees. In addition, residents chose a modern nature-themed playground design with a 2-5 play structure, musical play equipment, and a track ride. Which play structure design and playground equipment layout do you prefer?

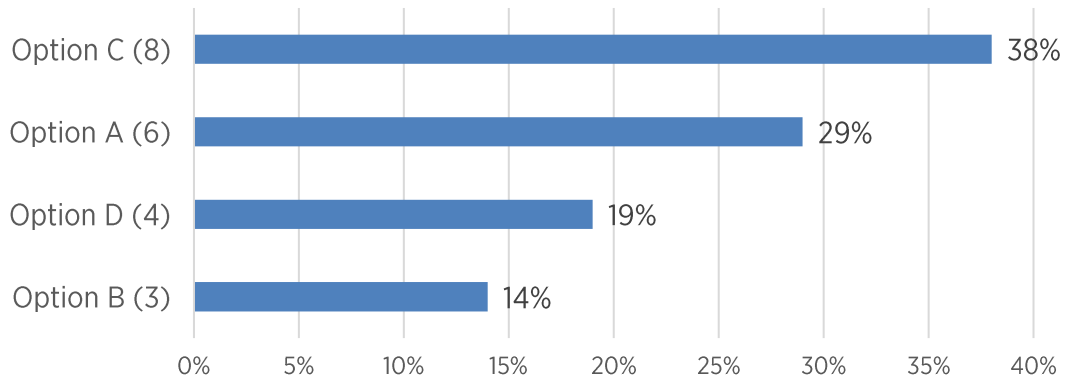

- One shade structure will be installed, where should it be placed?

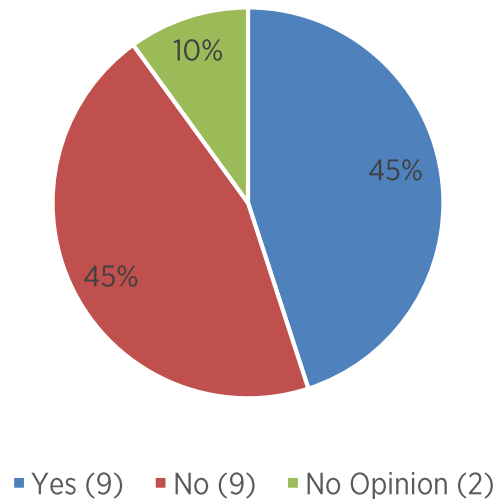

- Based on resident input, the improvements include the addition of two 20x20 picnic ramadas. Please choose locations for the other new ramadas. Pick two from the three options shown in the map.

4. The picnic ramadas will have metal hip roofs. Which column material do you prefer?

5. Currently your park sign states that the park is open from 6 a.m. to 12 a.m. Are you in favor of changing the posted park hours to 6 a.m. to 10 p.m.?

6. Additional Comments: **Comments on question 9 were included in the final tally. Unfortunately the formatting of the survey did not allow for multiple choices from respondents.*

1. In #9, I like opt. A&C. My computer only let me pick one. In #7, I picked opt. 2 but I like the small kiddie area of #1. On the map of the park, you show the layout of the play area and I'm assuming that's where it'll go which I like. If I could choose a color choice for the ramada top, I chose red with opt. B.
2. Unable to select 2 options in question 9. My first choice is location A and 2nd choice is location B.
3. Question 9 asked for two selections but only allowed one. I prefer B and C.

4. After playing both pickleball and tennis on the Harelson Courts, I think the Indian Bend Courts should be lines in the following way:
 - 1 court primarily lined for tennis and secondarily lined for 60' juniors tennis
 - 1 court primarily lined with 4 pickleball courts and secondarily lined for tennisThe moveable pickleball nets at Harelson work much better than I thought they would. Having them at Harelson is great, though I question the need for 4 nets instead of only providing 2. (from a city maintenance expense perspective)
5. Please make sure to keep the basketball courts and maybe apply a small fence parallel to Miller road to keep stray basketballs from going on the Street? I had a basketball get popped by oncoming traffic one time playing basketball there.
6. Re #9 - click only allowed 1 choice. I choose B & C to accommodate more people coming to the new playgrounds, also bball court.
Re #10 - would be great for the rooftops of ramadas to be green and blend in with the park.
7. Would it be possible to allocate tax dollars to install grills in the park as well?
Are the basketball hoops regulation size in the park because none of my shots go in.
Thank you for letting us vote!!!"
8. For the Ramada options it wouldn't let me choose 2 options, so I vote for options B and C. It would be great if they put foam padding instead of sand. Please let me know on any updates, I wasn't able to attend the meeting.
9. I prefer spending as little money as possible. Pick the most durable equipment and materials that will require the least maintenance over time and easier for cleaning graffiti. Be prepared that once shade structures go up that homeless issues will move into this park.
10. Via Nextdoor.com on Jan. 16 Gail P. writes: " A park bench or picnic table in the very west end of the park would be very useful"
