HIRING OUR HEROES CORPORATE FELLOWSHIP PROGRAM

How Does This Work?

While still on active duty, a student veteran/student veteran alumni, or serving as a military spouse, you must first apply, interview and be accepted by the respective sites' program manager. Upon approval, fellows will then be matched with a partnering company and placed in a professional position. For the next 10 weeks fellows will train and network with the company Monday through Friday. After successfully completing the program, you will have the ability to interview for employment with your fellowship host site. ***Participants enrolled in this paid fellowship program will also receive a benefits package that includes health care and child care.**

Why a Fellowship?

Military leaders, student veterans and spouses need a transition program that can significantly build their civilian network, and add civilian work experience to their resume. Becoming a fellow in this program notably increases the chances of landing a career that correlates with your education, experience and current level of pay. *Career placement rate for fellows who have gone through this program is 80 percent.

What are the Educational Benefits?

As a result of the U.S. Chamber of Commerce Foundation's partnership with Simplilearn, full-cost funding for an elected professional certification is available to each fellow who completes this program. In addition, weekly fellow huddles, and guest speaker/mentor programs will also be taught during the program.

Am I Eligible?

- Must be a spouse of a service member, student veteran/student veteran alumni, military veteran or on military transition leave for the duration of the 10 week program and be eligible to work shortly following the end of the program.
- Ideally, must have a bachelor's degree, plus three years military experience, leadership experience or equivalent related experience in your field OR an associate's degree, plus five years leadership experience or equivalent related experience in your field. *Volunteer experience will be considered for military spouses

When Does the Program Run?

- Summer 2017- May 8, 2017- July 14, 2017

Application Deadline: April 5, 2017

How do I apply?
