**FINDINGS:**

- 09/14/2006 Neighborhood Enforcement received a complaint from an adjoining neighbor to the property located at 226 E. Pebble Beach Drive regarding possible violations of the Tempe City Code. The complaint was for a severely deteriorated wooden fence that was not properly containing the multiple dogs located in the backyard of the property.
- 09/15/2006 I inspected the property and found the wooden fence on the east side of the property to be extensively deteriorated and in disrepair. The inspection also revealed that there were six to eight vehicles in the backyard along with excessive amounts of discarded and or stored household items. The registrations on the vehicles were not visible, missing, or expired. A courtesy notice was issued and mailed to the property owner.
- 10/11/2006 I re-inspected the property and found no change with the condition of fencing and the items in the backyard. A second and final courtesy notice was issued for the violations. Information was included on both notices to contact myself if any special assistance was needed, that the city may be able to provide.
- 11/15/2007 I re-inspected the property and found no change with the condition of the fencing and items in the backyard. I also received no contact from the property owner regarding the conditions. I issued the first citation and took photos of the property and violations.
- 11/29/2006 The first citation that was issued was paid.

12/14/2006 I re-inspected the property and found that the deteriorated fencing had been replaced with a six foot block wall. The wall is in compliance. There was no change with the conditions of the backyard.

During the re-inspection I contacted the property owner, Dolly Cupp, at the property, along with Mike Spencer, Senior Code Inspector. I informed her that the backyard was still in violation by having too many vehicles stored in it, and for having excessive amounts of items stored or discarded. She claimed that her son was responsible for the items and that he was going to be taking care of it. Since her son was not home, I requested that she ask him to contact me regarding the conditions. I left my business card and she understood to have him contact me.

01/02/2007 I re-inspected the property with Mike Spencer, and found no improvement or changes with the vehicles and stored or discarded items. We again contacted the property owner, Dolly Cupp, and she claimed that she had given my card to her son and that he was going to contact me. He again was not home at the time of the inspection. I requested that she have him contact me regarding the conditions or I would have to issue another citation and fine for the violations. I left another business card, and she would have him call me.

01/12/2007 I re-inspected the property and found no change with backyard storage and excessive vehicles. There has been no contact from the son of the property owner who is supposedly responsible for the conditions. The second citation was issued for the excessive vehicles and for the stored and or discarded household items. Additional photos were taken.

01/29/2007 The second citation that was issued was paid.

01/31/2007 I re-inspected the property and found no improvements or changes with the backyard conditions. I still have not received any contact from the property owner or her son since the last conversation at the property on 01/02/2007.

Per Mike Spencer, Senior Code Inspector, the filing for authorization to abate the violations of junk and debris and unregistered/excessive vehicles in the backyard at the property will be completed. A request for and estimate from Bishop Inc. was also completed for the request.

02/05/2007 I received an estimate from Bishop Inc. to abate the violations at a total cost of \$750.00.

02/07/2007 The notice of Intent to Abate was posted at the property. The notice indicated the public hearing was scheduled for 03/06/07.

**PROPERTY HISTORY:**

- CE990719 03/1999 thru 04/1999. Unregistered and inoperable vehicles.
- CE993070 10/1999 thru 12/2001. Excessive vehicles in the backyard and junk and debris in the backyard. Abatement was authorized by the Hearing Officer, but the property was brought into compliance prior to the abatement.
- CE022185 5/2002 thru 09/2002. Inoperable and unregistered vehicles in the front and back yards, deteriorated landscape, junk and debris in the backyard, and chipped or peeling paint.
- CE044248 11/2004 thru 12/2004. Inoperable and unregistered vehicle and junk and debris.
- CE054136 08/2005 thru 09/2005. Deteriorated landscaping.
- CE063341 07/2006 thru 08/2006. Deteriorated landscaping.

**RECOMMENDATIONS:**

Dolly A. Cupp is the owner of the property located at 226 E. Pebble Beach Drive, Tempe, AZ 85282, Book 133, Map 57, Parcel 031, as recorded with the Maricopa County Assessor's Office. Her mailing address is the same as the listed property, and she does maintain a current water billing account with the City of Tempe.

Since September of 2006 I have attempted to address the violations in the backyard of the property described above. The property owner has been personally contacted at the property and has been served with courtesy notifications and citations for the violations. The property has an extensive history dating back to 1999, when an abatement to remove the violations was authorized for similar violations at the property as this current complaint. That particular complaint, CE993070, took over two years to gain minimum compliance. Due to the extensive and multiple violations at the property, the property owner has become fully aware of the need to maintain the property, which she along with other parties residing at the property have repeatedly failed to do. I respectfully request the authorization from the Development Services Hearing Officer to abatement the said violations at the above listed property, in accordance with Tempe City Code 21-53.

Respectfully submitted,

Kirk Erickson  
Code Inspector II
