

Sample Plan for a Surf Shop

FUNCTION OF BUILDING

The domes and arches on the building remind customers of ocean waves. The blue and yellow colors suggest water and sunshine. Shoppers enter through a dark lobby on the right, which opens into a large open space lit by windows and a skylight. Surfboards hang from a cable system above their heads and can be brought down for a closer look.

PROPOSED BUILDING MATERIALS

The building will be constructed with wood covered with blue, painted stucco. The skylights will be blue-tinted plexiglas.
